🔗 My portfolio

OBJECTIVE

I am a Full-Stack Software Engineer specializing in modern frontend architecture, scalable backend systems, and high-performance web applications. Experienced in driving legacy migrations and turning complex technical problems into simple, elegant user experiences.

PROFESSIONAL EXPERIENCE

- Full-Stack Developer, Ein Consulting** 12/2025 – Present | Tangier, Morocco
- **Legacy Migration:** Spearheading the architectural transition from V2 to V3, moving legacy PHP logic to modern Symfony endpoints while ensuring service continuity.
 - **UI/UX Redesign:** Overhauling core interfaces to deliver a more intuitive, performant, and user-centric experience.
- Frontend Developer, Fortunetech SMC** 10/2024 – Present | Remote
- Leading the ongoing frontend architecture of a complex, multi-tenant ecosystem. Developed with Next.js, TypeScript, and Shadcn UI, the platform features robust role-based access control and efficient state hydration via Redux Toolkit. I maintain a 30% rendering speed improvement while continuously refining the codebase for long-term scalability.
- Web Development Intern, SUPTEM** 09/2024 – 10/2024 | Tangier, Morocco
- Co-developed the school website in WordPress, optimizing SEO and UX.
- Software Engineering Intern, Italia Machines** 06/2023 – 07/2023 | Tangier, Morocco
- Designed Flutter UI screens and integrated them with Odoo ERP workflows, reducing manual data entry time for staff by ~25%.

PROJECTS

- FortuneConnect Platform** 🌐, fortuneconnect.africa 10/2024 – 08/2025
- Built landing and dashboard interfaces for multi-user roles (Admin, Member, Investor) using Next.js, Shadcn UI and React Query.
 - Delivered 15+ production-ready frontend components used across 3 dashboards
 - Built reusable UI patterns that reduced development time for new pages by ~30%
- GitHub Compass** 🌐, github-compass.vercel.app 2025
- A GitHub validator I built for recruiters to separate a developer's real contributions from tutorials "noise"
- IMachines** 🌐, italiamachines.com 07/2023
- Co-Developed an e-commerce platform for industrial machinery, integrating Odoo ERP for seamless inventory and order management, enhancing user experience and operational efficiency.

EDUCATION

- Software and Decision-Making Engineering,** 10/2022 – 10/2025 | Tangier, Morocco
SUPTEM (école Supérieure des Sciences Techniques et de Management)
- Software engineering, ALX SE Africa** 08/2023 – 11/2024 | Remote
Frontend Specialization

HARD SKILLS

- Core Languages**

JavaScript (ES6+), TypeScript, Python, PHP, SQL

Frontend Ecosystem

React, Next.js, Tailwind CSS, Framer Motion
- Backend & Infrastructure**

Node.js, PostgreSQL, Symfony 7.4, Docker, Git/CI/CD, WSL2/Zsh
